SINCE 1939

Bapalal Keshavlal is widely regarded as a leading international jewelry brand from India. Established in 1939, this design powerhouse is a family-owned business that has been praised for its manufacturing prowess, but more important, for staying true to its pioneering quality standard. This year it completes 75 years of its existence.

In the two decades since venturing into exports and being recognized by the Indian government for its consistent high sales, the company has established deep relationships with some of the world's top high-end jewelry retailers. The brand is known and appreciated not only for its distinctive and eclectic designs but also for its highly perceived value. Indeed, all company activities are driven by its design ethos, which as its logo suggests is grounded in serving the manifold emotions and desires of women.
